

How to Illustrate **KIP** in 6 easy steps!

1 Start by drawing a long vertical rectangle and a triangle as shown.

2 Add 2 circles in the top left hand corner for ears and 2 lines for feet.

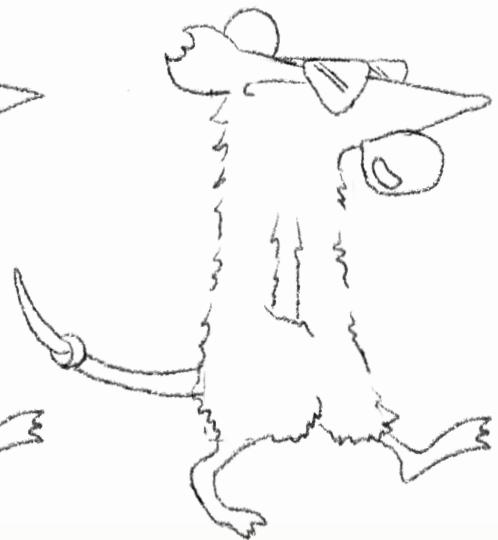

3 Draw 2 triangles at the top for his sunglasses, a circle for his gum, and a little tail.

4 Start erasing some of the guidelines you added from step 1. Also, add the legs and feet.

5 Now it's time to add his fur! Lightly erase the rectangular guide line you drew in step 1 and replace it with fur.

6 Lastly, draw in his arm and add the details! Draw a notch in his ear, 2 lines in his sunglasses, a little oval in his gum and a knot in his tail.

Don't forget to color Kip in & sign your artwork!
